// Ember.js

// Node.js

// Express

Git

SQL DB - Postgres + MySQL

HTML5//CSS

Product Management

Curriculum Design

## ABOUT ME

I'm a Product Developer who always seems to find myself filling the role of Product Manager. While I have the technical chops to *build* web applications using Javascript and Ruby, what's really made me valuable in a startup environment is my ability to discover, prioritize the (sometimes competing) needs of our users, internal stakeholders, and the development/design/product teams.

## EXPERIENCE

NY CODE AND DESIGN ACADEMY // DEC 2016 - PRESENT

Full-Stack Web Development Intensive Instructor

STUDENT LOAN GENIUS // NOV 2015 - NOV 2016

Full-Stack Product Developer

Ready-for-anything development & product mgmt at quickly-growing startup.

- Ruby on Rails API Development, Javascript ES6 Loan Amortization, multiple Ember.js frontends, Gem development (yodlee\_wrap)
- Principal liaison between development team & sales, marketing, CS, and designer.
- Worked closely with designers, stakeholders, and users to generate and refine product requirements for internal and external products

COMMUNICATION SERVICE FOR THE DEAF (VINEYA) // SEPT 2013 - NOV 2015

Software Developer

Started as a bug squasher, graduated to Full-Stack Dev, left a Product Lead.

- Ruby on Rails business logic, RoR API development, Ember.js Frontend
- Product Co-Lead/ Backend Developer (RoR REST API) for Vineya Business (Dec 2014), Product Lead/ Front-end Developer (JS + Ember + JSONAPI Spec) for Internal Vineya Admin tools (Sept 2015)
- Worked with non-technical stakeholders to create timelines and roadmaps for release of new features and products

EMBERITAS // FEB 2016 - PRESENT

Founder & Curriculum Lead

Emberitas workshops teach women to code html, css, and js with Ember.js

- Fundraising, marketing, curriculum development, teaching, and everything it takes to get people learning Ember in just one or two days
